To: ALL REGISTERED STUDENTS

**MICPA EXAMINATION
ACCOUNTING AND AUDITING STANDARDS**

The Institute's Examination Regulations and Syllabus state that:

- (a) Questions involving knowledge of accounting and auditing should be answered in accordance with the requirements of approved accounting standards, approved auditing standards/guidelines and the relevant legislation;
- (b) Questions involving knowledge of new approved accounting standards, approved auditing standards/guidelines and exposure drafts will not be set until at least 6 months have elapsed since the last day of the month in which the statement became effective or was published.

The list of accounting standards, auditing standards and other technical pronouncements, which are currently examinable in the Institute's examination, are set out below.

I. Approved Accounting Standards

The Companies Act 1965 requires that approved accounting standards are to be applied to the financial statements of all companies. Approved accounting standards are issued by the Malaysian Accounting Standards Board (MASB), which is established under the Financial Reporting Act 1997.

For the purposes of the MICPA examination, the following accounting pronouncements are examinable :

- (i) MASB approved accounting standards and other pronouncements issued by MASB;
- (ii) Malaysian Accounting Standards (MAS) issued by MICPA, which have not been replaced by MASB approved accounting standards;
- (iii) Technical Bulletins (TB) issued by MICPA, which are to be regarded as the best current practice in the area in question.

The MASB has issued two set of accounting standards as follows:

(a) Financial Reporting Standards (FRS)

These standards are mandatory for all entities other than private entities. Public listed companies, their subsidiaries, associates, or companies jointly controlled by them are required to comply with FRS in the preparation of their financial statements.

(b) Private Entity Reporting Standards (PERS)

These standards are applicable to private entities. A private entity is a private company incorporated under the Companies Act, 1965 that:

- is not itself required to prepare or lodge any financial statements under any law administered by the Securities Commission or Bank Negara Malaysia; and
- is not a subsidiary or associate of, or jointly controlled by, an entity which is required to prepare or lodge any financial statements under any law administered by the Securities Commission or Bank Negara Malaysia.

Essentially, PERS are MASB Standards issued by the MASB prior to January 1, 2005.

The MASB has also issued one Technical Release and one Statement of Principles.

The list of approved accounting standards and other pronouncements examinable in the November 2008 examination are set out in Annexure I.

II. **Approved Auditing Standards**

For the purposes of the MICPA examination, the following pronouncements on quality control, auditing, review, other assurance and related services issued by MICPA are examinable:

- (i) International Standards on Quality Control (ISQC)
- (ii) International Standards on Auditing (ISA)
- (iii) International Standards on Review Engagements (ISRE)
- (iv) International Standards on Assurance Engagements (ISAE)
- (v) International Standards on Related Services (ISRS)
- (vi) International Auditing Practice Statements (IAPS), which provide interpretive guidance and practice assistance in the application of the ISAs;
- (vii) MICPA Auditing Technical Releases (ATR), which are to be regarded as the best current practice in the area in question.

Each International Standard on Quality Control, Auditing, Review, Other Assurance and Related Services contains an explanatory Foreword from the Council on the status and application of the Standard, and notes and exceptions where applicable. In particular, a set of audit report examples incorporating the requirements of the Companies Act 1965 is included as an appendix to ISA 700.

The list of approved auditing standards and other pronouncements examinable in the November 2008 examination are set out in Annexure II.

III. **Exposure Drafts and Current Developments**

Students at the Advanced Stage Examination level are expected to have a detailed knowledge of exposure drafts of proposed accounting standards issued by the MASB and auditing standards by MICPA, where more than 6 months have elapsed since the last day of the month in which the exposure drafts were issued.

Students at this level are also expected to be able to discuss and evaluate current issues on accounting, financial reporting and auditing arising in Malaysia and internationally.
