

Advertorial

**YB Senator Tan Sri Amirsham A Aziz
- A True Bred CPA**

*Quality Education Made Affordable
Foundation to a Great Successful Career
Premium Brand*

MICPA can be proud that over the last 50 years, the CPA Malaysia qualification has gained wide recognition as a premier professional qualification which is a clear testimony of the high quality of a home-grown professional accountancy qualification. MICPA has a strong pool of successful luminaries in business, in public service, as well as in public accounting practice. I became a member of the MICPA because it is a premium brand. I value being a member of a local professional body. The training you receive as a professional accountant, especially as a CPA will give you an edge in the areas of, auditing, internal control, taxation matters as well as management accounting. I know that the CPA programme is well regarded for its quality and thoroughness as it places equal emphasis on the acquisition of technical knowledge and practical training.

I am impressed that MICPA is taking affirmative steps to seek mutual recognition status of the CPA Malaysia qualification with overseas professional accountancy bodies to produce graduates equipped with the latest knowledge and skills. MICPA's recent move in inking the MoU agreement with The Institute of Chartered Accountants in Australia (ICAA) is an exciting development which should be of value to all students of accountancy in Malaysia and both ICAA and MICPA.

Strong and meaningful international alliances such as this one are a very positive development and will increase the career mobility of Malaysian accountants across borders and enhance the opportunities of exporting professional services. This will undoubtedly be instrumental in helping Malaysia move further up the value-added chain in the education industry.
