Module Outline

Business Strategy and
Financial Management

BUSINESS STRATEGY AND FINANCIAL MANAGEMENT

AIM

To equip students with:

1. A good understanding of the organisation's environment, business strategy and key functional areas
2. A sound knowledge of the principles of financial management
3. The ability to evaluate business finance decisions

INTRODUCTION

In order to run or manage a business, one has to know the concept of business and its environment, how the business is formed and organised. Hence, it is important to understand the organisation's objective, strategies and various functional areas to see how goods or services are produced and distributed, and how costs and income are accounted for and managed. The syllabus on Business Strategy should enable students to be an effective contributor to the successful management of a business organisation.

The syllabus on Financial Management emphasised on evaluation of sources of finance and their effects on decision making, valuation of business, analysis of capital structures and formulation of financing decisions and strategies.

Students should be able to integrate and apply the principles and knowledge learnt from both parts of the syllabus to practical business problems.

EXAMINATION FORMAT

A 3-hour written paper consisting of two parts:

Section A : 2 compulsory questions	40%
Section B : Choice of 3 from 4 questions	60%
