As part of the MICPA's continuous effort to support the professional development of small and medium sized practitioners (SMPs) in the accountancy profession, the MICPA has, on September 13, 2022, launched an implementation guide, namely "**ISQM1 Guide and Illustrative Manual**" (IGIM). The Guide is intended to help SMPs understand the requirements of the International Standards on Quality Management 1 (ISQM1) and implement the ISQM1 in the manner intended. It also helps firm deal with its responsibility for having a system of quality management (SoQM) in accordance with ISQM1.

The workshop aims to help SMPs understand the requirements of the ISQM1. The Guide which comprises guidance, case study, illustrative manual and templates will be used as a workshop material. It is a practical and useful Guide to ease the implementation process of the ISQM1.
