

# 2025 BUDGET COMMENTARY AND TAX INFORMATION

## The Economic Scenario

Amidst significant global turmoil, the Ringgit surged to new heights since April 2023. Malaysia's Ringgit has been one of Asia's strongest-performing currencies so far this year. The Ringgit's rebound can be attributed to various factors, including a stronger economy in addition to steps taken by the country's central bank to encourage government-linked firms to repatriate money, thus bolstering the currency. The Government's commitment to creating a conducive investment climate has led to reforms in the country's investment ecosystem to strengthen Malaysia's growth potential. Measures to continue implementing structural reforms to strengthen our growth potential and economic prospects would make Malaysia a more attractive investment destination. Malaysia has registered growth beyond expectations, with the country's GDP expanding by 5.8% in the second quarter of 2024. The country's economy is expected to continue its growth momentum given the strong economic fundamentals, structural reforms and growth in key sectors.

To bring some insights and perspectives to our fellow professionals, **The Malaysian Institute of Certified Public Accountants (MICPA) together with the Chartered Tax Institute of Malaysia (CTIM) and the Malaysian Institute of Accountants (MIA)**, will once again jointly publish the annual Budget Commentary and Tax Information booklet for our members.
